

9 Wynfield Drive, Lititz PA 17543 (717) 626-9571

The Company

Tait Towers is the leading provider of quality stages, automation and specialized rigging for the touring entertainment industry. Since the company's founding in 1978, Tait Towers has been building touring systems for clients such as The Rolling Stones, Elton John, U2 and Cirque du Soleil. Located in Lititz, PA, Tait maintains five different buildings, including a state-of-the-art CNC machine shop.

Fabrication ranges from high-tech automation to custom artistic scenes and everything in between, integrated to create a complete, one-of-a-kind staging package. Tait Towers specializes in providing easy-to-use packaging and engineered components to allow for quick and reliable set-ups and tear-downs from city to city.

The Solution

Tait Towers chose FeatureCAM to program both their CNC Mills and Lathes due to its ease of use and being so user friendly. FeatureCAM has proven to be a quick solution for Tait Towers, allowing them the ability to prototype in house and to be productive towards the entertainment industry.

“We do a lot of prototyping. That is where FeatureCAM really shines.”

Jared Keim
